Speed
Pomegranates

Maximum efficiency for the best pomegranate juice

Speed Pomegranates provides all the speed and autonomy to make the freshest juice and adapt to the needs of all kinds of businesses.

30
pieces of fruit per minute

Specialists in pomegranates

Speed Pomegranates is the first high-performance juicer designed to extract juice from pomegranates.

Its juice extraction system has been especially designed to perfectly adapt to the thickness and hardness of the most resistant peels.

Prepared for any type of pomegranate

Robustness
Great power and robustness of all the parts.

Autonomy
More than 100 kg of non-stop production.

Juice quality
Triple filter to obtain a ready-to-drink juice.

High-performance motor
0.50 HP power for the most demanding work.

Tap
With front button and bottle support available in three sizes.

TITANIUM™
powered by ZUMEX®

Titanium blade Ⓝ
Maximum hardness in the fruit cut, and longer-lasting sharpness.

PRESS

Automatic PulpOut system

Its automatic conveyor belt effectively removes the seeds and pulp from the pomegranates to obtain the best juice, without interrupting the juice extraction rate.
